

CONCENTRATED QUARRY TILE FLOOR CLEANER

PRODUCT USES

Excellent for cleaning quarry tile floors, tile walls, and stainless steel kitchen equipment.

OPERATOR BENEFITS

- Economical use cost due to highly concentrated formula.
- Alkaline based formula cuts grease and reduces slipperiness of tile floors.
- Cleans and brightens grout.
- May also be used to clean kitchen wall tiles.
- Refillable spray bottle lets you spot-clean stubborn soils.

DIRECTIONS FOR USE

- Wear rubber gloves and goggles when using this product.
- Floor cleaning: Dilute this product at a ratio of 1 to 32 and repeat if necessary. Use hot water, fill a floor mop bucket, apply directly to the floor, and wait 2 minutes for solution to penetrate soils. Rinse mop, wring out, and mop up any excess liquid. Repeat if necessary.
- Hard surface cleaning: Dilute this product at a ratio of 1 to 64 when using a hydraulic proportioning dispenser. Spray product directly on the area to be cleaned. Wipe surface with a clean, wet sponge or cloth. Rinse sponge or cloth in clean water, wring out, and then wipe up any excess cleaning solution. Repeat if necessary.

EQUIPMENT NEEDED

Rubber gloves, chemical goggles, a hydraulic proportioning dispenser, mop, mop bucket, sponge, cleaning cloth, and a properly identified TMA spray bottle.

PRODUCT SPECS

Pack size: 4/1 Gal.

Characteristics: Non-viscous liquid

Rinsability: Excellent

Flammability: NA

Biodegradable: Yes

Color: Slight straw color

Odor: Slight chlorine

Foam: Moderate

pH in conc. form: Very alkaline

Phosphorous content: 0.0%
